Continuing Education

CME/MOC

The University of Cincinnati is accredited by the Accreditation Council (ACCME) for Continuing Medical Education to provide continuing medical education for physicians. **The University of Cincinnati designates this live activity for 5.75 AMA PRA Category 1 Credits™.** Physicians should claim only the credits commensurate with the extent of their participation in the activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to **5.75 MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program.**

1st Annual
University of Cincinnati
General Internal Medicine
CME Conference

*Updates Every General
Practitioner Needs to
Know*

Saturday, September 9TH,
2017
7:30am to 3:00pm

**Manor House Banquet &
Conference Center, Mason OH**

Course Description

This **unique one day course** highlights advances in topics such as diabetes, hypertension, hyperlipidemia, anticoagulants, perioperative risk, pain management, as well as an evidence based decision making to reduce waste and increase value.

This program will use evidence-based adult learning principles to engage learners and promote long-term knowledge retention. Short, didactic sessions, case based learning, small group discussion will all be utilized to provide an exciting exchange of ideas among learner! In the process, attendees will experience best practices for knowledge acquisition and retention

Target Audience

Physicians, nurse practitioners, physician assistants, pharmacists, healthcare providers, and trainees in community and private practice settings, interested in obtaining CME/MOC credit or specializing in internal medicine, hospital medicine, and family medicine.

Objectives

1. Demonstrate an understanding of new medications approved for the management of diabetes mellitus
2. Discuss recent changes in strategies and medications used during the perioperative period
3. List options for pain management and know recent opioid guidelines
4. Discuss recent and on-going developments in anticoagulation and the role of NOACS and VKA's
5. Detail the components of evidenced based decision making to reduce waste and increase value in healthcare
6. Demonstrate an understanding of new medications approved for hyperlipidemia
7. Discuss recent guideline changes in management of hypertension
